WALK-INS WELCOME
Corinth has so much to offer newcomers, visitors and longtime residents, but one of the most enduring offerings, time after time, is the area’s rich history – and what a history it is.

Founded as Cross City by Houston Mitchell and Hamilton Mask in 1854, the town’s name was soon changed to Corinth. The area was once billed as the Crossroads of the South because of the importance the city’s railroads played during the Civil War. Those two rail lines which crossed over each other at city center made Corinth one of the most strategic transportation hubs fought over by both the Union and Confederate armies. Today the Crossroads Museum and Historic Corinth Depot sit only a few feet from the original railroad tracks that remain busy with frequent traffic from freight trains.

While the depot’s museum details the birth of Corinth, the Corinth Civil War Interpretive Center tells the story of the Battle of Corinth and how the town played an vital role in U.S. history.

Corinth offers two historic homes with stories to tell.

The Verandah-Curlee House and the Duncan House are both highlights of Corinth’s remarkable architectural offerings. Originally built in 1857 for Mask, the Verandah-Curlee House served as headquarters for several generals during the Civil War. Confederate generals planned the attack on Union troops while housed at the Verandah-Curlee House in April 1862. The decision would lead to the Battle of Shiloh.

The Duncan House was recently restored to its 1858 glory. The area adjacent to the house features a Civil War era railroad junction buried in concrete. Seven markers tell the importance the historic Crossroads played during the Civil War. The park is open to the public, as is the city-owned Verandah-Curlee House. The
Duncan Park

Duncan House is a private residence. Another site not to be missed is the Corinth Contraband Camp. The park is full of large trees while a quarter-mile paved walkway is lined with six life-size bronze sculptures. The sculptures depict the men, women and children who inhabited the camp between November 1862 and December 1863 as they lived, worked and learned. Historical markers along the way offer facts and quotes to help reflect on this integral piece of Corinth history.

Using the Corinth Contraband mobile app, videos will create an augmented reality experience. Parking and benches are available, and dogs are welcome.

The Corinth Coca-Cola Museum has drawn on the fascinating over 100-year history of Corinth Coca-Cola Bottling Works. The museum features over 1,000 pieces of authentic Coca-Cola memorabilia, plus a large collection of old fashioned drink machines from years gone by.

The Corinth Symphony Orchestra is a major player...
in the arts community in Corinth. The group promotes a wide variety of orchestral and ensemble music through several concerts held each year, including their annual Christmas concert. Lead by Conductor Maurice Weatherall, the symphony often boasts their full brass concerts.

“An Evening of Bach ‘n Roll,” a classic rock-themed set featuring regional rock band Prowler, and “Musica Classica d’Italia” were two recent shows. The symphony also often features Broadway stars and local school choir groups singing alongside the orchestra. With the exemption of the occasional outside performance, concerts are normally held inside the historic Corinth Coliseum.

What are Slugburgers?

Corinth’s signature dish is a must-try

The slugburger is Corinth’s signature dish and a must-try for newcomers and visitors to the Crossroads area.

They first became popular during the Great Depression when meat was rather scarce.

No, these burgers aren’t made from real slugs. It’s a mixture of beef and soy or some form of a breading extender. The patty is deep-fat fried to a golden brown and served with mustard, onion and pickle (some folks add cheese). Most people can eat two burgers with a side of fries.

The original version was sold for a nickel (also known as a slug), hence the name.

There are a handful of local diners who serve up fresh slugburgers, and for those who would like to take some of the meat home, a few grocery stores offer it packaged for sale.

Each July, Main Street Corinth presents a festival held in honor of the delicacy.

The Slugburger Festival is a tradition and features several days of excitement offering up big-name entertainment, a carnival around court square and, of course, slugburgers.

Today, a National Park Service visitors center interprets the key role of Corinth in the Western Theatre of the American Civil War. The 15,000 square foot facility features interactive exhibits and a multimedia presentation of the Battle of Shiloh and the Battle of Corinth. The center stands near the site of Battery Robinet, a Federal fortification where some of the bloodiest fightings of the Battle of Corinth took place.

An extensive courtyard exhibit is a home to a water feature commemorating 200 years of American history. The center also houses a 75 seat auditorium, public research library and a gift shop/bookstore.

The Corinth Contraband Camp is a park lined with large trees where a quarter-mile paved walkway is lined with six life-size bronze sculptures. The sculptures depict the men, women and children who inhabited the camp between November 1862 and December 1863 as they lived, worked and learned.
